The Machine Stops was named one of the greatest science fiction novellas published before 1965 by the Science Fiction Writers of America. In this tale of the future, a man defies the system in which all people live underground and are isolated from each other by their technology.

The Machine Stops - free PDF, CHM, EPUB, FB3

In *The Machine Stops*, one of the reasons society slides underground and allows *The Machine* to dictate how things are done is because people stopped complaining. They became desensitized to the injustices around them and began to accept them as commonplace, so long as their individual needs were met.
